- HTML5 | CSS3 | JavaScript | React | Next.js | Tailwind | Git | Python | C
- Design Systems | Accessibility (WCAG) | Interaction Design | Vibe Coding | Langflow | N8N | Zapier | Make

Work Experience

IST Group, Sweden Hybrid Senior Product Designer	Jan 2026 - Present
- Design and deliver end-to-end digital experiences with a strong focus on interaction, motion, and usability. - Craft intuitive user interfaces enhanced with purposeful animation using tools like Rive to build dynamic, state-driven interactions. - Lead UX research, interaction design, and high-fidelity UI execution, including micro-interactions and responsive behaviors. - Contribute to scalable design systems and component libraries to maintain consistency and efficiency across products.	
Health Connect, Remote Senior Product Designer	Aug 2025 - Dec 2025
- Owned full product design lifecycle for AI-powered SaaS platform with voice-to-text notes and patient portals, from research to developer handoffs, ensuring cohesive team execution. - Revamped core UX flows targeting a 30% increase in user engagement and 22% feature adoption within two months; usability testing to cut error rates by 25% and enhance onboarding. - Architected a company-wide design system with reusable components and documentation, targeting 40% gains in design/development efficiency.	
BAG Technologies Lead Product Designer	Feb 2023 – July 2025
- Led end-to-end design initiatives across products, from UX optimization and wireframing to scalable systems, collaborating cross-functionally for intuitive, accessible outcomes. - Improved platform UX flows via usability testing, driving 30% active user engagement, 22% feature adoption, and 25% error rate reduction in six months. - Built and maintained a design system, boosting efficiency by 40% through consistent branding and reusable components; refined user journeys, improving task completion by 20%.	
Parentude Product Designer	Apr 2021 – Jan 2023
- Crafted intuitive, culturally resonant interfaces for mobile/web apps, empowering 5,000+ Rwandan families with seamless UX for emotional bonding tools. - Spearheaded user interviews and iterative prototyping, boosting onboarding rates by 25% via empathy-driven design. - Architected scalable, bilingual design system slashing iteration time by 35%; pioneered gamified features like activity trackers and rewards for 30% engagement uplift.	
Upwork Freelance Designer	Jan 2018 – Jul 2021
- Delivered branding, web designs, and marketing assets for diverse clients using Figma/Adobe tools, from wireframes to production-ready files. - Managed full creative process, iterating on feedback to ensure on-time, high-standard outcomes focused on UX and visual clarity.	

Education

African Leadership University BSc. (Hons) Software Engineering Grade: 4.2/5 CGPA - First Class Honors	Apr 2022 – Jul 2025
